

IBM[®] Rational[®] System Architect 11.4.3.3 iFix 1

Release Notes

June 2015

© Copyright IBM Corporation. 1986-2015. All Rights Reserved.

Any reproduction or distribution of this work is expressly prohibited without the prior written consent of IBM Rational.

Scope

This iFix updates IBM Rational System Architect 11.4.3.3.

Hardware/Software Information

The hardware and software requirements for this iFix are described in the ‘Installing and upgrading Rational System Architect’ section of the Rational System Architect Information Center:
http://publib.boulder.ibm.com/infocenter/rsysarch/v11/topic/com.ibm.sa.saxt.install.guide.doc/topics/t_ovwinstrsa.html.

Getting Started

Review the information below for this IBM Rational System Architect iFix.

Installation Information

Prerequisite

Rational System Architect 11.4.3.3.60 must already be installed on the machine in which you are installing this iFix.

Licensing

No licensing changes are required to install this iFix.

Installation Instructions

Note: [Release_Location1] is the Rational Products installation directory. This is typically for 32 Bit OS C:\Program Files\IBM\Rational and for 64 Bit OS C:\Program Files (x86)\IBM\Rational.

- 1) Close System Architect.
- 2) In the [Release_Location1] \System Architect Suite\System Architect directory, rename the following file:

- sadesign.dll
- saedit.dll
- saverify.dll
- sadlg.dll

- 3) Unzip the RSA_11_4_3_3_SA_iFix1.zip to the [Release_Location1] \System Architect Suite\System Architect directory.
- 4) From the [Release_Location1] \System Architect Suite\System Architect\Support directory, run the file SAReg.exe. **Note:** On Microsoft Windows Vista and above, right-click on the file and select **Run as Administrator**.
- 5) Restart System Architect.

Product Documentation

Rational System Architect product information is available at http://www-947.ibm.com/support/entry/portal/Overview/Software/Rational/Rational_System_Architect.

Rational System Architect documentation is in the Information Center at <http://publib.boulder.ibm.com/infocenter/rsysarch/v11/index.jsp>.

Compatibility Issues

This section describes any compatibility issues that could arise from use of this iFix.

With Rational Products

This iFix does not introduce any compatibility issues with other IBM Rational products.

With Third-Party Products

This iFix does not introduce any known compatibility issues with third-party products.

Defects and Changes

Core Defects this iFix fixes

Change Request	APAR	Category	Description
247388		SA-XML Import & Export	Export XML of Entity and Subordinates only exports f attribute
223901	PI40612	SA-Definition Editor	Quoting of object name inconsistent
247189	PI42460	SA-Diagramming	Moving an identifying relationship line between 2 entities changes the cardinality at the other end
246880	PI41703	SA-Definition Editor	Adding custom sub-interface definitions to a custom interface definition freezes SA
